GPSA Referee Protocol and Recommendations

We continue to look for opportunities to upgrade referee performance in the GPSA House and Travel programs so that we offer our players, coaches and parents consistent and high-level officiating. We will continue to monitor our progress and provide suggestions where appropriate. Our Referee Evaluation System has been helpful in identifying areas of improvement. By and large, the performance of our GPSA referees is very good and your efforts are appreciated by the players, coaches, parents and GPSA Board of Directors. Thank you for your good work. Please review the following points below as they have been identified as areas where we as a group can improve:

1. **Know and understand the Laws of the Game and any applicable Rule Modifications (see attached) that apply to the game / league / division you are officiating.**

Review these rules before taking the field and make sure that you discuss these rules with each coach prior to the game (i.e. – offsides not enforced, length of game, pass-back rule not enforced, number of players, direct or indirect kicks, etc.). Reviewing these rules with the coaches and players in advance will reduce conflict.

Know and implement:

- a) Proper re-start procedures after a stoppage of the game

Recognize and enforce:

- a) Pushing and shoving vs. good challenges
- b) Handling the Ball Foul vs. Incidental contact with the hand

2. **DO NOT LET ROUGH PLAY OCCUR OR GO UNSANCTIONED.**

The biggest complaint we receive is that our GPSA referees are not calling the games close enough and rough play is being allowed and escalates throughout the game. You must call the games closely and take decisive and immediate action to protect the safety of the players. We are seeing an abundance of pushing, grabbing and rough tackles that are not being called as fouls. As a result, they players are becoming frustrated and then retaliate against the opposing team. You have the power to prevent this situation from occurring ---- blow your whistle and call a close game. Do not let the game get out of control. If necessary sanction and send off offending players that cannot control their behavior – do not be timid on the field.

3. **Control the game with your whistle and body language – be confident**

Blow your whistle loud and hard when necessary – call a close game. Do not let the game get out of control. Your body language and how you use your whistle will indicate to everyone whether you are in control of the game, or not. If necessary sanction and send off offending players that cannot control their behavior – do not be timid on the field.

4. **Be consistent in the way you call the game.**

Inconsistency in your calls will frustrate players, coaches and spectators. Know the rules and apply them rigorously. Do not be afraid to “make the call”. Set the tone of the game early and maintain a consistent method of calling the game.

5. **Be in the proper position to make the call -- and hustle.**

You need to hustle and move quickly on the field to put yourself in the proper position to call the game effectively. You should not be standing still in the middle of the field calling the game without moving. You need to run and keep up with the play. If you are on top of the play and indicate you are paying attention to play you will gain the respect of players, coaches and spectators alike. Move aggressively up and down the field.

6. **Communication is key to controlling the game.**

You need to be able to effectively communicate how you are calling the game with players, coaches and spectators. You can communicate with your voice and your whistle. If you see a foul and are going to play “advantage” you should call out “play on”. This informs everyone that you have seen a possible infraction but you are **intentionally** allowing play to continue. If you see arms up to push or a player becoming out of control tell them to restrain themselves or they will be called --- be proactive -- - do not wait for a situation to occur that you can predict will happen --- address it up front. Use your whistle as an effective tool to let everyone know you are unhappy with a rough tackle or unsporting behavior. Blow your whistle loud and long to control the game.

7. **Be professional and timely.**

Dress properly and arrive early. Be well prepared to officiate the game.
